### **Optional Continuum of Care Homeless Housing Activity Chart Instructions**

**Column Name** 

**Provider Name**: Self-explanatory. **Facility Name**: Self-explanatory.

HMIS: Enter one of the following three codes for each project concerning its participation in the Continuum

of Care's HMIS.

C=Currently entering client data into the HMIS; P-Month/year (P-4/04) = Planned month/year that the program will begin entering client data into the HMIS; and N=the program currently does not plan to participate in the HMIS.

**Geo Code:** Indicate the Geographic Area Code (Geo Code) for the project. Where there is only one geographic code for the Continuum, check the box and indicate that code in the first project only. If the project is located in multiple jurisdictions, select the jurisdiction where the majority of the provider's inventory is located.

**Target Population A**: Select the code that best represents your project: **SM**= only Single Males (18 years and older); **SF**= only Single Females (18 years and older); **SMF**= only Single Males and Females (18 years and older with no children); **FC**= only Families with Children; **YM**= only unaccompanied Young Males (under 18 years); **YF**= only unaccompanied Young Females (under 18 years); **YMF**= only unaccompanied Young Males and Females (under 18 years); **M**= mixed populations. Only one code should be used per facility. If more than one group is served use the **M**=mixed populations code

**Target Population B:** Indicate whether the project serves these additional characteristics: **DV**= only Domestic Violence victims; **VET**= only Veterans, and **AIDS**= only persons with HIV/AIDS.

### 2004 Year-Round Units/Beds:

Family Units: Enter the number of units that the project set-aside for serving families.

Family Beds: Enter the number of beds that are contained in family units.

**Individual Beds:** Enter the number of beds serving individuals.

#### **2004** All Beds (Emergency Shelters Only)

Emergency shelters are usually structures with year-round beds, but there are structures with seasonal beds that are made available to homeless persons during particularly high-demand seasons of the year, usually wintertime. In addition, projects may have overflow capacity that includes cots or mats in addition to permanent bed capacity that is not ordinarily available but can be marshaled when demand is especially great, for example, on the coldest nights of the year. Vouchers are to be identified under overflow beds. The total number of year-round, seasonal and overflow beds would provide a point-in-time snapshot of the housing inventory for homeless people at its highest point in the year.

**Year-Round Beds:** The number of family beds in (column "Family Beds") **plus** the number of beds for individuals (column "Individual Beds").

Seasonal Beds: The number of beds made available to individuals and families on a seasonal basis.

**Overflow Beds:** The number of beds, mats or spaces or vouchers that are made available on a very temporary basis.

**Current Inventory:** List all facilities and voucher programs that are currently operating.

Under Development: List all the projects that are fully funded but are not yet serving homeless people.
